

The Crown Vics

Real gone & Rockin'

It's Crazy Man. Crazy!

1950's Rock & Roll Big Band

Get ready to jump! The Crown Vics are here and they're bringing the purest form of Rock and Roll to the dance floor. British Invasion? What's that?! These cats jump, jive and wail by performing the very best music from the birth of Rock & Roll. Like the Rhythm & Blues influenced superstars of the 1950s, the Crown Vics know how to put some soul in their stroll to have a ball!

Vavoom! This six piece band tears it up with two wailin' saxes, slappin' bass, boomin' drums, rockin' guitar and crazy vocals. Whether its 50s' sockhop boppers by Bill Haley, Little Richard, Fats Domino and more, or early wild, rockin' Rhythm & Blues numbers that always shake a party, these cats know how to twist the key, rev it up and go, go, go!

Pop the clutch, and set the clock to rock, 'cause The Crown Vics' style is up-beat, lively and 100% danceable. Giving the audience much more than a musical journey in time, they blast off with a visual experience that won't be beat! Can't dance? You're no square! Just kick back and watch the Vics do their thing! What a scream!

So whether you've got a souped-up club, high school reunion, classic car show, festival or corporate party, don't let those candy-coated oldies bands mess with your scene; the Crown Vics will fuel your event with the scandalous energy that made Rock & Roll famous. That'll flat out get it!

Since 2003, the Crown Vics have been bringing a very unique style of show to audiences of all ages. Performing only music from the very early days of Rock & Roll, the Crown Vics have succeeded in recreating the sound, look and vibe of 1958.

During 2004 and 2005, the Crown Vics were part of the Ultimate Doo Wop shows through out the Midwest. The Vics were the back up band for the original stars from the 1950's who performed their hits to sold out shows. Those original stars from the 1950's and 1960's included, Frankie Lymon's Legendary Teenagers, the Eldorados, the Magnificents, the Spaniels, the Reflections, the Crystals, the Fleetwoods, Maurice Williams and the Zodiacs, Gene "Duke of Earl" Chandler, the Marcels, the Edsels, and Kathy Young.
