**Lincoln Public Library
725 Pekin St**

**Win a FREE Garden Plot for 2013 Gardening Season!!
Registration for Garden Plots Begins at Open House**

What is a community garden?

A community garden is an area of land maintained by its members for growing fresh food and flowers. Participants harvest produce from their own plots, or volunteer to work a community plot with produce being donated to a local food bank or other organization. Each gardener chooses the design and plants they want to grow in their plot. All are welcome and have access to fellow members who are willing to share tips and teach.

Why will you love a LCG plot?

- You don't have to dig up your lawn—we do the digging for you; your plot is pre-amended and vegetation-free at the start of the season
- You're not alone: there are always other gardeners you can consult with when you encounter a new garden problem
- Irrigation is available and included with your plot
- New to gardening? You're in luck: several local gardeners have agreed to mentor inexperienced gardeners
