RE: Purchase of Trucking Company and/or Metal Fabrication Company

Our LLCDP office has been contacted by an area businessman interested in purchasing a company in the metal fabrication and/or trucking sectors. His requirements are as follows:

- CAT should be one of business's clients. For Metal fabrication, John Deere should be a client.
- The business should be located within a 60 mile radius of Morton
- Seller financing is preferred
- If the company is profitable, that's a plus but if not, it's not a showstopper.
- The area businessman's preference is to pay no more than \$3 million, but I'm open to businesses that cost a little more
- Per trucking companies, having kitting operations will be a huge plus. A company that has both flat beds and box trailers will be preferred. It doesn't really matter whether they are Full truck loads (TL) or Partial Truck Loads(PTL) businesses. The businessman is open to long haul trucking and/or short haul trucking companies.

Please contact me per my email/phone information below if you know of a business in your vicinity that might match the criteria being sought by this area businessman.

The mission of the Lincoln/Logan County Development Partnership is to work together to enhance the economic prosperity and quality of life in Logan County. The Partnership Board meets the last Monday of each month.
