COMMENTS:

With 6 seniors and 2 juniors this group will should be a very good defensive team. Our defense must help us find ways to score. This group is very experienced. This group will have to play together and have the same kind of ball movement and defensive effort that is a must for the Railers. They are an excellent group to coach and fun to watch them player together as a team. This group will really improve as the season progresses. Call or email if you need more information. Email is the best way to contact. Thanks and we will see you soon.

It will be fun to watch from a fan stand point to see all the new team that the Railers will play this season as we begin our 1st year in the Apollo Conference. You must be prepared to play every night because we have a lot of teams that are good. Along with our new conference (Apollo) teams and our non-conference schedule we should be prepared for the post season. Our Non-Conference opponents are Bloomington, Rock Island, Chicago Harlan, Decatur Eisenhower, Normal West, Waukegan, Washington, Morton and Canton. We will also continue to participate in the Collinsville Christmas Tournament.
