Provide Ongoing Code Maintenance

The codification process is not truly over when your new Code is delivered. Your community will change and grow, and ultimately, your Code will evolve with it. In order to maintain your Code as an accurate and reliable resource, it is important that the City keeps the Code up-to-date after initial publication. General Code's supplementation services are designed to make the process easy, fast and accurate.

For more information about General Code's Supplementation Services, see page 22.

Project Materials

Source Materials

The City of Lincoln will provide General Code with the following documents, which will be used as the source materials for the recodification project:

- ▶ A hard copy of the City's Code, as updated to Ordinance No. 2019-897

Project Scope

This proposal and the scope of this project consider only an estimate of up to 590 pages of legislation submitted for review as listed above. The processing, review, and inclusion of any materials not submitted are outside the project scope as proposed and therefore may be subject to additional charges. We request that Lincoln set up a process to routinely send any new legislation upon adoption. This additional legislation will be included in the Code up to the point where the editorial work has been completed and will be subject to an additional charge at the end of the project.

Special Considerations

General Code has identified the following specific special considerations that will be addressed by our staff as the project progresses:

- ▶ Please note that the base project price and scope of this proposal includes publication of the City's Code online only and includes no print output.
- ▶ There are 13 Titles. Titles will become divider pages.
- ▶ Our initial review of the Code noted certain inconsistencies in the numbering system, specifically, there are duplicate chapter numbers in each Title. These can lead to confusion for the reader trying to find a particular Code section and particularly for the user of the online Code. General Code will identify these inconsistencies and will work with the City to impose uniform numbering as needed to remedy them. The Title number of each Title will be incorporated into the Chapter number (the section numbers already incorporate the Title number). This will not only impose consistency, but will also improve the searchability of the Code in the online version. For example,

Title 1	Title 1
Chapter 1 becomes	Chapter 1-1
Section 1-1-1	Section 1-1-1

Title 2	Title 2
Chapter 1 becomes	Chapter 2-1
Section 2-1-1	Section 2-1-1

The General Code Codification Process

Our goal is to organize your legislation into a systematized, clean format, designed to provide you and your community with an easy-to-understand, simple to reference, and logically indexed Code.

We Know Your Community

Our Code consultants have an average of 15 years building and maintaining Codes and have helped develop Codes for more than 20 communities across Illinois. This state-specific knowledge gives us an understanding of the shared history, values and concerns of your area, helping us better work with you to build a Code that reflects the values of your community.

We Include You in the Process

The project workflow that General Code has developed is highly collaborative, allowing you to engage with a Code consultant at every key stage of the codification process. Our Code consultants are invested in working with local governments and strive to ensure that your Code improves transparency within your community while accurately reflecting your laws.

Process Outline

Beginning a Code Project

To begin the project, the City shall provide the source materials for the new Code. For more detail, see the source materials listed on page 7.

Electronic Inputting; Proofreading; Stylizing

The text of the current Code and any additional materials that may not already be codified will be input and thoroughly proofread to ensure complete accuracy. While we will generally match the style of the Code, please note it is General Code's policy not to include the following code enhancements unless specifically directed to do so by the City Attorney: cross-references; state law references; and Code comparative tables.

Convert Code

General Code will convert the Code into our XML publishing system. This system enables the Code to be printed efficiently. It also provides the foundation for providing the Code on the Web.

Post Code on Web

Upon completion of the conversion of the current Code, General Code will provide the City with a link to put on the City's Website. This link will seamlessly open the City's fully searchable Code on the Web.

Code Delivery

General Code will make your *eCode360* site available to the public.

Ongoing Supplementation

As the City adopts new legislation, General Code's supplementation services will help you keep your Code up-to-date, accurate and a reliable resource for your community.

Visual Zoning™

eCode360® MapLink™ powered by ZoningHub™

eCode360 MapLink is a *Visual Zoning* service that makes it easier for business and property owners, planners, developers, and constituents to find the information they need in your community's Zoning ordinance by presenting Zoning Code data from *eCode360* in an interactive online map. *MapLink* users can click on a map to view details about permitted uses and answer questions such as, "Where can I open my business?" and "What can I do with my property?" With just a few clicks, users interested in economic development can view dimensional requirements, allowable uses, and zoning districts, zoom to an individual parcel to examine its requirements, or search for properties based on land use. By making it easier for users to find the information they need for their development projects, they are more likely to open their businesses in the City, which can help grow your community.

MapLink uses your municipality's existing GIS map information and seamlessly presents data from *eCode360*, so your interactive map clearly and accurately displays your essential Zoning elements. When a Code supplement including a Zoning change is completed and posted to *eCode360*, your Code data is simultaneously updated in *MapLink*, ensuring that users are always working with the most accurate requirements.

eCode360® Enhanced Graphics™

eCode360 Enhanced Graphics can help drive economic development in your community by presenting an online Zoning Code that is clear, easy to understand and always up-to-date. *Enhanced Graphics* offers zoning specific features like integrated tables that allow users to view tables in context, multi-column layout options to accommodate natural image placement, searchable image captions, color coding to create easier navigation, and high-quality graphics. Every community is unique, so we also offer custom solutions tailored to suit your community's specific needs.

Ongoing Code Maintenance

Your Code is always evolving and is an investment you need to protect.

Because your Code will evolve and grow with your community, the codification process is not truly over when your new Code is delivered. In order to maintain your community's trust and reliance on your Code, General Code offers supplementation services that will help to keep your Code reliable, accurate and up-to-date. Our supplementation services are designed to make the process easy, fast and accurate. In addition, General Code provides a free sample legislation service to municipalities we serve as well as regular legislative alerts to inform local governments of the latest trends in legislation that may affect their communities.

Materials

After the enactment of new legislation, the City can forward a copy to us by whatever method is most convenient.

Digital copies of the legislation can be sent via email to ezsupp@generalcode.com. Upon receipt, we will send you an email confirming that we have received your legislation. Should an alternative method of transmission be required for transferring large files, please contact us and we will provide the necessary information.

General Code will hold legislation pending a pre-approved schedule, or begin the job, as directed by the City. Please note that charges for supplementation services are outside of the scope of this proposal and will be billed separately. An estimate of the charges applicable to a particular supplement is available upon request.

Posting of New Laws

Between regular Code supplements, General Code will temporarily post PDF copies within 1 to 2 business days of receipt of new legislation to your online Code, to provide ready access to information until such time as the legislation can be codified through supplementation. If supplementation does not occur within one year of appending, General Code will remove the link to that new legislation.

Schedule

Code supplements will be provided on a schedule designed to meet the needs of Lincoln. Typical schedules may be quarterly, semiannual, or annual, or upon authorization by the City. Updates to the electronic version of the Code can occur on a more frequent schedule than printed supplements if the City prefers.

Our average turnaround time for processing routine supplementation is between 4 and 6 weeks.

Editorial Work on Your Supplement

The work on your supplement specifically focuses on the new legislation being incorporated with each supplement. For each supplement we provide project management, recordkeeping, processing, professional review of new legislation, and consult throughout the project. Our goal is to make the information easily accessible without altering in any way the meaning of what was originally adopted. The work on your supplement specifically focuses on the new legislation being incorporated with each supplement. As part of our process for new legislation, we will:

- Kickapoo Street from Clinton Street to Broadway **(with a possibility of this corner being closed until 8:00 am Monday morning)**
- McLean Street from Clinton Street to Broadway Street
- Broadway Street from the alley at State Bank to McLean Street
- Pulaski Street from the alley at the Alley-Bi to Hamilton Street
- The west end of Clinton Street from Kickapoo to McLean Street. Only a portion of Clinton Street would be closed to allow a way to Scully park and traffic to enter the city parking lot north of Scully Park.

The last several years we have worked hard to have downtown cleared of all festival related items before noon on Sunday. We will plan to do that again this year.

Thank you for your kind consideration.

Sincerely,

The Lincoln BBQ Committee
