CHIEF OF POLICE PAUL ADAMS

DEPUTY CHIEF MATTHEW VLAHOVICH

To: Mayor Tracy Welch and Lincoln City Council

From: Chief of Police, Paul Adams

Meeting Date: June 15, 2021

Re: LPD – Safety Complex Connectivity

Background

Lincoln Police Department utilizes a 24Ghz wireless radio technology to establish network connectivity to the Logan County Safety Complex. This technology utilizes two dishes that must be in the line of sight of each other. When installed in 2018 by Lincoln Land Communications it established a solid signal as it was shooting past the Logan County Courthouse.

Due to the recent addition of scaffolding around the dome of the Courthouse, we have now lost that line of sight and thereby lost connection. We have currently implemented a Virtual Private Network (VPN) over the Internet, but the upload speed coupled with encryption is only giving us about a 4Mbps connection rather than a 1Gbps connection we had when the wireless was working.

Analysis/Discussion

Option 1) Upgrade Comcast - Comcast only can upload at a max of 35Mbps over its current cable connections. Comcast can offer up to 1Gbps upload and download over a fiber connection which would cost \$1,395 per month. Realistically we only need a 200Mbps connection up and down which would be \$830 per month. However, the Safety Complex would also need to be upgraded for us to have these speeds in both directions.

Option 2) Purchase 60Ghz low cost wireless equipment and utilize the Lincoln Rural Fire Protection District antenna to establish connectivity temporarily. This would require four antennas at \$399 a piece including installing at all three locations. Total cost for equipment would be \$2000 and I'm awaiting a quote for labor to have them installed. CCA indicates the 60Ghz radios are susceptible to rain interference and may affect their wireless infrastructure they are using.

Option 3) Purchase two more of the 24ghz wireless antennas that we are currently using and have them installed at Lincoln Rural and merely repoint our current antennas for a permanent fix. Two more antennas would cost \$6500 and I am awaiting a quote for

LINCOLN POLICE DEPARTMENT

CHIEF OF POLICE PAUL ADAMS

DEPUTY CHIEF MATTHEW VLAHOVICH

installation at Lincoln Rural. 24Ghz would not affect CCA's equipment. This connection would also add connectivity for Lincoln Rural to the Safety Complex.

Option 4) Permanent fix would be to run fiber optic into the County Courthouse and connect LPD with the County Network. Previous quotes indicated about \$100,000 for boring conduit and that doesn't include the price of shooting fiber into the conduit and making all the necessary connections.

Fiscal Impact

Option 2 would be a possible fix at the lowest cost, but we run into a possibility of affecting another business communication as CCA rents space from Lincoln Rural.

Option 3 would be the next cheapest route for the long term and we would hopefully not have to make any further changes unless we have a major weather event. Option three could stay in place once a possible fiber optic solution is put in place to be utilized as a backup.

There is a little over \$11,000 left in the Police Department Building Line 60-0200-7820 that should cover the cost of adding the two additional antennas at Lincoln Rural.

Recommendation

Approve the purchase and installation of two 24Ghz radios at Lincoln Rural Fire Protection District.

Re: Dell 5420 Mobile Data Computer Replacements

Background

Lincoln Police Department currently utilizes Dell 5420 Rugged laptop computers for our police squad cars. This is the instrument that officers utilize to check license plates, driver's licenses, wanted people, messaging, and will soon be utilized to complete reports in the squad cars with our integration with Sangamon County.

Analysis/Discussion

Our current laptops were purchased in May of 2014. The warranty is expired and it is hard to find replacement parts and batteries at a reasonable price. The screen hinges are worn and the screen flops back and forth as these laptops are generally used 24 hours a day, 7 days a week.

Updated Dell Laptops will be compatible with our current docking stations already mounted in the squad cars so those will not need replaced.

Fiscal Impact

\$16,100 was budgeted in this year's fiscal budget for the purchase of seven (7) replacement computers. However the original quote was missing a GPS module which is necessary for car locations. I received updated pricing of \$17,618.23 that includes that module.

Recommendation

Approve the Police purchase of seven (7) Dell 5420 Rugged laptops not to exceed \$17,618.23.

1.4 This Agreement does not represent an exclusive relationship, and either Party may develop similar arrangements with other persons and entities without being deemed to be in breach or violation of this Agreement.

ARTICLE 2. TERM AND TERMINATION OF AGREEMENT

2.1 Term. The Term of this Agreement will commence on the date of the last signature at the end of this Agreement (the "Term Commencement Date") for a term of one (1) year therefrom (the "Term Expiration Date"), unless, as prescribed in this Article 2, this Agreement is terminated prior to that Term Expiration Date.

2.2 Termination. This Agreement may be terminated prior to the Term Expiration Date which is identified in Article 2.1, in the following manner:

2.2.1 Early Termination. If the Parties consent and mutually agree, in writing, this Agreement may be terminated on the terms and effective as of the date stipulated by the Parties. In addition, either Party may terminate this Agreement, without being required to specify a cause or reason, and without the terminating Party incurring any liability to the other Party as a consequence of that termination, by the delivery of at least a thirty (30) day notice to the other Party.

2.2.2 Breach of Duties. If either Party fails to timely or adequately perform the duties and responsibilities assumed by that Party under this Agreement, this Agreement may be terminated, at the option of the terminating Party, by the delivery of at least a ten (10) day notice to the other Party.

RE: Influent Pump and Piping Repair

Background

The Influent pumps are in need of rebuilds consisting of motor stator bake, impellor replacement, seal replacement etc.

Analysis/Discussion:

The 4 influent pumps have not had a major service in 19 years. We have lost a single seal on 3 of the 4 pumps. Recently we have lost the second seal on pump #3. These pumps have multi stage seals on their shafts so motor re-winding is not expected to be needed. If needed it would add an unknown cost for repair. The repairs are quoted at \$14,189.85 per unit plus freight for a total of \$56,759.40 plus freight. I would like the council to approve an expense not to exceed \$65,000.00 for these repairs, this approval should provide for all freight costs as well as re-winding one of the pumps if needed. This repair was budgeted for in an amount of \$82,000. With the budgeted amount, and what I am asking the council to approve, we should see a savings from budgeted amount of no less than \$17,000.

Fiscal Impact:

Cost not to exceed of \$65,000.00 to be expensed from the "50-7200-7860 Capital Expense - Equipment" line item.

Council Recommendation:

Approve the quote in an amount not to exceed \$65,000.00 for the repair of all 4 influent pumps.

MEMORANDUM

FROM: Walt Landers, Street Superintendent

MEETING

DATE: June 15, 2021

RE: **Curb & Sidewalk Improvement Initial Targets**

Background

Each year the Lincoln Street Department organizes a Curb Sidewalk Replacement Project to help improve and maintain city sidewalks. These projects also enhance safety and provide a better experience for citizens and visitors as they walk through our city. This year's project has a budget of \$125,000.00.

Analysis/Discussion

This year's project focus will be along the Northside of Wyatt Ave from Sheridan to the Westside of Ladue St. It also includes both ramps at the entrance to Lincoln Community High School. There is also one target from last year's project that will be added that couldn't be completed due to budget restraints. The targets are as follows. The engineering estimate for this project is project is \$119,000.00.

Pekin St. Northside

- Sheridan to Butler

Railer Way

- Both ramps either side of the high school entrance.

Wyatt Ave Northside

- Sheridan to Butler
- Butler to Elliott
- Elliott to Ladue

Council Recommendation:

Approve recommended targets for Curb & Sidewalk Replacement Project.

MEMORANDUM

TO: Mayor and Aldermen of the City of Lincoln

FROM: Walt Landers, Street Superintendent

MEETING

DATE: June 15, 2021

RE: **2021 Resurfacing Targets**

Background

Each year the Lincoln Street Department organizes a Roadway Resurfacing Project to help improve and maintain city streets. These projects also enhance safety and provides a better experience for citizens and visitors as they travel through our city.

The streets targeted for resurfacing are chosen using Paver Pavement Management System, roadway inspections by Street Department staff and we also take in to consideration any concerns reported by citizens. The FY 2021/2022 Budget has \$570,000.00, earmarked for resurfacing.

Analysis/Discussion

This year's project will consist of heat scarification and microsurfacing. The targets are minor arterial streets that connect commercial and residential areas in the city. These treatments will also help eliminate issues with the dust that comes along with the standard oil and chip streets with heavier traffic flows. Lincoln Street Department staff will complete patching operations in preparation for this project using MFT maintenance funds. The engineering estimate for these targets is approximately \$450,000.00 including Design and construction Engineering.

Heat scarification is a process that recycles hot mix asphalt by heating the surface, scarifying and relaying the material. This process will smooth the driving surface.

Once the heat scarification is complete it will receive a microsurface treatment. Microsurfacing is similar to slurry seal. It consists of the application of a mixture of water, asphalt emulsion, aggregate (very small crushed rock), and chemical. Some targets will only receive a microsurface.

Council Recommendation:

Approve recommended targets for 2021 Resurfacing Project

Farnsworth Group and/or any subconsultant shall be deemed the authors and owners of their respective instruments of service and shall

retain all common law, statutory and other reserved rights, including copyrights. They are not intended or represented to be suitable for reuse by Client or others on extensions of the Project or on any other project. Any reuse without specific written verification or adaptation by Farnsworth Group will be at Client's sole risk, and without liability to Farnsworth Group, and Client shall indemnify and hold harmless Farnsworth Group or any subconsultant from all claims, damages, losses and expenses including court costs and attorney's fees arising out of or resulting therefrom. Any such verification or adaptation will entitle Farnsworth Group to further compensation at rates to be agreed upon by Client and Farnsworth Group.

Subcontracting: Farnsworth Group shall have the right to subcontract any part of the services and duties hereunder without the consent of Client.

Third Party Beneficiaries: Nothing contained in the Agreement shall create a contractual relationship with or a cause of action in favor of a third party against either Client or Farnsworth Group, except as expressly provided herein. Farnsworth Group's services under the Agreement are being performed solely for Client's benefit, and no other party or entity shall have any claim against Farnsworth Group because of the Agreement; or the performance or nonperformance of services hereunder; or reliance upon any report or document prepared hereunder. Neither Farnsworth Group nor Client shall have any obligation to indemnify each other from third party claims, except as expressly provided herein. Client and Farnsworth Group agree to require a similar provision in all contracts with construction contractors and subconsultants, vendors, and other entities involved in the Project to carry out the intent of this provision.

Right of Entry: Client shall provide for Farnsworth Group's and/or any subconsultant's right to enter property owned by Client and/or others in order for Farnsworth Group and/or any subconsultant to fulfill the scope of services for this Project. Client understands that use of exploration equipment may unavoidably cause some damage, the correction of which is not part of the Agreement unless explicitly so provided.

Recognition of Risk: Client acknowledges and accepts the risk that: (1) data on site conditions such as geological, geotechnical, ground water and other substances and materials, can vary from those encountered at the times and locations where such data were obtained, and that this limitation on the available data can cause uncertainty with respect to the interpretation of conditions at Client's site; and (2) although necessary to perform the Agreement, commonly used exploration methods (e.g., drilling, borings or trench excavating) involve an inherent risk of contamination of previously uncontaminated soils and waters. Farnsworth Group's and/or any subconsultant's application of its present judgment will be subject to factors outlined in (1) and (2) above. Client waives any claim against Farnsworth Group and/or any subconsultant, and agrees to indemnify and hold Farnsworth Group and/or any subconsultant harmless from any claim or liability for injury or loss which may arise as a result of alleged contamination caused by any site exploration. Client further agrees to compensate Farnsworth Group and/or any subconsultant for any time spent or expenses incurred by Farnsworth Group and/or any subconsultant in defense of any such claim, in accordance with Farnsworth Group's and/or any subconsultant's prevailing fee schedule and expense reimbursement policy.

Authority and Responsibility: Client agrees that Farnsworth Group and any subconsultant shall not guarantee the work of any construction contractor or construction subconsultant, shall have no authority to stop work, shall have no supervision or control as to the work or persons doing the work, shall not have charge of the work, shall not be responsible for safety in, on, or about the job site, or have any control of the safety or adequacy of any equipment, building component, scaffolding, supports, forms, or other work aids.

Electronic Files Transfer.

(a) Farnsworth Group may prepare electronic files which contain machine-readable information or certain information for a project ("Project Files"). Client may request Project Files to facilitate Client's understanding of the project. The Parties recognize that the Project Files are subject to alteration, either intentionally or unintentionally, due to, among other causes, transmission, conversion, media degradation, software error or human error. The Parties further understand that the transfer of Project Files from the system and format used by Farnsworth Group to an alternate system or format cannot be accomplished without the introduction of anomalies and/or errors.

(b) Upon request, Farnsworth Group will supply Project Files to Client upon the express terms and conditions set forth herein:

(i) The Project Files may not be used for any purpose not related specifically to the Client's project. Use of these files for development of other projects; additions to the project, or duplication of the project at any location is expressly prohibited.

(ii) The Project Files are provided for information purposes only and are not intended as an end product. The Project Files may be a work in process, and Farnsworth Group is under no obligation to provide Client with any updated version(s) of the Project Files.

(iii) Client acknowledges and understands that the Project Files may not reflect all data contained in the contract documents, addenda, or other pertinent contract-related documents. Client acknowledges and understands that the Project Files may contain data which is not included in the contract documents.

(c) **BIM Digital Files.** With regard to the transfer of Building Information Model (BIM) digital files, both Parties agree as follows:

(i) Farnsworth Group will provide only those BIM files created for Client's project. There is no representation the BIM files are comprehensive or comprise a complete model of the building.

(ii) The level of development of the model will be defined consistent with AIA Document G202-2013, as agreed by the parties. After reviewing and verifying the accuracy of the information contained within Farnsworth Group's BIM files, Client is authorized to develop its own model to a higher level of development for its own uses, but, in doing so, expressly agrees to assume all risks associated therewith.

Utilities: Client shall be responsible for designating the location of all utility lines and subterranean structures within the property line of the Project. Client agrees to waive any claim against Farnsworth Group and/or any subconsultant, and to indemnify and hold harmless from any claim or liability for injury or loss arising from Farnsworth Group and/or any subconsultant or other persons encountering utilities or other man-made objects that were not called to Farnsworth Group's attention or which were not properly located on documents furnished to Farnsworth Group. Client further agrees to compensate Farnsworth Group and/or any subconsultant for any time spent or expenses incurred by Farnsworth Group and/or any subconsultant in defense of any such claim, in accordance with Farnsworth Group's and/or any subconsultant's prevailing fee schedule and expense reimbursement policy.

Samples: All samples of any type (soil, rock, water, manufactured materials, biological, etc.) will be discarded sixty (60) days after submittal of Project deliverables. Upon Client's authorization, samples will be either delivered in accordance with Client's instructions or stored for an agreed charge.

Discovery of Unanticipated Hazardous Substances or Pollutants: Hazardous substances are those so defined by prevailing Federal, State, or Local laws. Pollutants mean any solid, liquid, gaseous, or thermal irritant or contaminant including smoke, vapor, soot, fumes, acids, alkalies, chemicals and waste. Hazardous substances or pollutants may exist at a site where they would not reasonably be expected to be present. Client and Farnsworth Group and/or any subconsultant agree that the discovery of unanticipated hazardous substances or pollutants constitutes a "changed condition" mandating a renegotiation of the scope of services or termination of services. Client and Farnsworth Group and/or any subconsultant also agree that the discovery of unanticipated hazardous substances or pollutants will make it necessary for Farnsworth Group and/or any subconsultant to take immediate measures to protect human health and safety, and/or the environment. Farnsworth Group and/or any subconsultant agree to notify Client as soon as possible if unanticipated known or suspected hazardous substances or pollutants are encountered. Client encourages Farnsworth Group and/or any subconsultant to take any and all measures that in Farnsworth Group's and/or any subconsultant's professional opinion are justified to preserve and protect the health and safety of Farnsworth Group's and/or any subconsultant's personnel and the public, and/or the environment, and Client agrees to compensate Farnsworth Group and/or any subconsultant for the additional cost of such measures. In addition, Client waives any claim against Farnsworth Group and/or any subconsultant, and agrees to indemnify and hold Farnsworth Group and/or any subconsultant harmless from any claim or liability for injury or loss arising from the presence of unanticipated known or suspected hazardous

substances or pollutants. Client also agrees to compensate Farnsworth Group and/or any subconsultant for any time spent and expenses incurred by Farnsworth Group and/or any subconsultant in defense of any such claim, with such compensation to be based upon Farnsworth Group's and/or any subconsultant's prevailing fee schedule and expense reimbursement policy. Further, Client recognizes that Farnsworth Group and/or any subconsultant has neither responsibility nor liability for the removal, handling, transportation, or disposal of asbestos containing materials, nor will Farnsworth Group and/or any subconsultant act as one who owns or operates an asbestos demolition or renovation activity, as defined in regulations under the Clean Air Act.

Job Site: Client agrees that services performed by Farnsworth Group and/or any subconsultant during construction will be limited to providing observation of the progress of the work and to address questions by Client's representative concerning conformance with the Contract Documents. This activity is not to be interpreted as an inspection service, a construction supervision service, or guaranteeing the construction contractor's or construction subconsultant's performance. Farnsworth Group and/or any subconsultant will not be responsible for construction means, methods, techniques, sequences, or procedures, or for safety precautions and programs. Farnsworth Group and/or any subconsultant will not be responsible for construction contractor's or construction subconsultant's obligation to carry out the work according to the Contract Documents. Farnsworth Group and/or any subconsultant will not be considered an agent of Client and will not have authority to direct construction contractor's or construction subconsultant's work or to stop work.

Shop Drawing Review: Client agrees that Farnsworth Group and/or any subconsultant shall review shop drawings and/or submittals solely for their general conformance with Farnsworth Group's and/or any subconsultant's design concept and general conformance with information given in the Contract Documents. Farnsworth Group and/or any subconsultant shall not be responsible for any aspects of a shop drawing and/or submittal that affect or are affected by the means, methods, techniques, sequences, and procedures of construction, safety precautions and programs incidental thereto, all of which are the construction contractor's or construction subconsultant's responsibility. The construction contractor or construction subconsultant will be responsible for dimensions, lengths, elevations and quantities, which are to be confirmed and correlated at the jobsite, and for coordination of the work with that of all other trades. Client represents that the construction contractor and construction subconsultant shall be made aware by Client of the responsibility to review shop drawings and/or submittals and approve them in these respects before submitting them to Farnsworth Group and/or any subconsultant.

LEED Certification and Energy Models: Client agrees that Farnsworth Group and/or any subconsultant do not guarantee the LEED certification of any facility for which Farnsworth Group and/or any subconsultant provides commissioning, LEED consulting or energy modeling services. The techniques and specific requirements for energy models used to meet LEED criteria have limitations that result in energy usage predictions that may differ from actual energy usage. Farnsworth Group and/or any subconsultant will endeavor to model energy usage very closely to actual usage, but Client agrees that Farnsworth Group and/or any subconsultant will not be responsible or liable in any way for inaccurate budgets for energy use developed from the predictions of LEED-compliant energy models. LEED certification and the number of LEED points awarded for energy efficiency are solely the responsibility of the U.S. Green Building Council and Green Building Certification Institute.

Environmental Site Assessments: No Environmental Site Assessment can wholly eliminate uncertainty regarding the potential for Recognized Environmental Conditions in connection with a Subject Property. Performance of an Environmental Site Assessment is intended to reduce, but not eliminate, uncertainty regarding potential for Recognized Environmental Conditions in connection with a Subject Property. In order to conduct the Environmental Site Assessment, information will be obtained and reviewed from outside sources, potentially including, but not limited to, interview questionnaires, database searches, and historical records. Farnsworth Group is not be responsible for the quality, accuracy, and content of information from these sources. Any non-scope items provided in the Phase I Environmental Site Assessment Report are provided at the discretion of the environmental professional for the benefit of Client. Inclusion of any non-scope finding(s) does not imply a review of any other non-scope items with the Environmental Site Assessment investigation or report. The Environmental Site

Assessment report is prepared for the sole and exclusive use of Client. Farnsworth Group does not intend, without its written consent, for the Phase 1 Environmental Site Assessment Report to be disseminated to anyone beside Client, or to be used or relied upon by anyone beside Client. Use of the report by any other person or entity is unauthorized and such use is at their sole risk.

Consequential Damages: Notwithstanding any other provision of the Agreement, and to the fullest extent permitted by law, neither Client nor Farnsworth Group, their respective officers, directors, partners, employees, contractors or subconsultants shall be liable to the other or shall make any claim for incidental, indirect, or consequential damages arising out of or connected in any way to the Project or Services performed under this Agreement. This mutual waiver of consequential damages shall include, but not be limited to, loss of use, loss of profit, loss of business, loss of income, loss of reputation and any other consequential damages that either party may have incurred from any cause of action including negligence, strict liability, breach of contract and breach of strict and implied warranty. Both Client and Farnsworth Group shall require similar waivers of consequential damages protecting all the entities or persons named herein in all contracts and subcontracts with others involved in Project.

Personal Liability: It is intended by the parties to the Agreement that Farnsworth Group's services in connection with the Project shall not subject Farnsworth Group's individual employees, officers or directors to any personal legal exposure for the risks associated with this Project. Therefore, and notwithstanding anything to the contrary contained herein, Client agrees that as Client's sole and exclusive remedy, any claim, demand, or suit shall be directed and/or asserted only against "Farnsworth Group, Inc., an Illinois corporation," and not against any of Farnsworth Group's individual employees, officers or directors.

General Insurance and Limitation: Farnsworth Group is covered by commercial general liability insurance, automobile liability insurance and workers compensation insurance with limits which Farnsworth Group considers reasonable. Certificates of all insurance shall be provided to Client upon request in writing. Within the limits and conditions of such insurance, Farnsworth Group agrees to indemnify and hold Client harmless from any loss, damage or liability arising directly from any negligent act by Farnsworth Group. Farnsworth Group shall not be responsible for any loss, damage or liability beyond the amounts, limits and conditions of such insurance. Farnsworth Group shall not be responsible for any loss, damage or liability arising from any act by Client, its agents, staff, other consultants, independent contractors, third parties or others working on the Project over which Farnsworth Group has no supervision or control. Notwithstanding the foregoing agreement to indemnify and hold harmless, the parties agree that Farnsworth Group has no duty to defend Client from and against any claims, causes of action or proceedings of any kind.

Professional Liability Insurance and Limitation: Farnsworth Group is covered by professional liability insurance for its professional acts, errors and omissions, with limits which Farnsworth Group considers reasonable. Certificates of insurance shall be provided to Client upon request in writing. Within the limits and conditions of such insurance, Farnsworth Group agrees to indemnify and hold Client harmless from loss, damage or liability arising from errors or omissions by Farnsworth Group that exceed the industry standard of care for the services provided. Farnsworth Group shall not be responsible for any loss, damage or liability beyond the amounts, limits and conditions of such insurance. Farnsworth Group shall not be responsible for any loss, damage or liability arising from any act, error or omission by Client, its agents, staff, other consultants, independent contractors, third parties or others working on the Project over which Farnsworth Group has no supervision or control. Notwithstanding the foregoing agreement to indemnify and hold harmless, the parties agree that Farnsworth Group has no duty to defend Client from and against any claims, causes of action or proceedings of any kind.

ADDITIONAL LIMITATION: IN RECOGNITION OF THE RELATIVE RISKS AND BENEFITS OF THE PROJECT TO BOTH CLIENT AND FARNSWORTH GROUP, THE RISKS HAVE BEEN ALLOCATED SUCH THAT CLIENT AGREES THAT FOR THE COMPENSATION HEREIN PROVIDED, FARNSWORTH GROUP CANNOT EXPOSE ITSELF TO DAMAGES DISPROPORTIONATE TO THE NATURE AND SCOPE OF FARNSWORTH GROUP'S SERVICES OR THE COMPENSATION PAYABLE TO IT HEREUNDER. THEREFORE, TO THE MAXIMUM EXTENT PERMITTED BY LAW, CLIENT AGREES THAT THE LIABILITY OF FARNSWORTH GROUP TO CLIENT FOR ANY AND ALL CAUSES OF ACTION, INCLUDING, WITHOUT LIMITATION, CONTRIBUTION, ASSERTED BY CLIENT AND ARISING OUT OF OR RELATED TO THE NEGLIGENT ACTS, ERRORS OR

OMISSIONS OF FARNSWORTH GROUP IN PERFORMING PROFESSIONAL SERVICES SHALL BE LIMITED TO FIFTY THOUSAND DOLLARS (\$50,000) OR THE TOTAL FEES PAID TO FARNSWORTH GROUP BY CLIENT UNDER THE AGREEMENT, WHICHEVER IS GREATER ("LIMITATION"). CLIENT HEREBY WAIVES AND RELEASES (I) ALL PRESENT AND FUTURE CLAIMS AGAINST FARNSWORTH GROUP, OTHER THAN THOSE DESCRIBED IN THE PREVIOUS SENTENCE, AND (II) ANY LIABILITY OF FARNSWORTH GROUP IN EXCESS OF THE LIMITATION. IN CONSIDERATION OF THE PROMISES CONTAINED HEREIN AND FOR OTHER SEPARATE, VALUABLE CONSIDERATION, THE RECEIPT AND SUFFICIENCY OF WHICH ARE HEREBY ACKNOWLEDGED, CLIENT ACKNOWLEDGES AND AGREES THAT (I) BUT FOR THE LIMITATION, FARNSWORTH GROUP WOULD NOT HAVE PERFORMED THE SERVICES, (II) CLIENT HAS HAD THE OPPORTUNITY TO NEGOTIATE THE TERMS OF THE LIMITATION AS PART OF AN "ARMS-LENGTH" TRANSACTION, (III) THE LIMITATION AMOUNT MAY BE LESS THAN THE AMOUNT OF PROFESSIONAL LIABILITY INSURANCE REQUIRED OF FARNSWORTH GROUP UNDER THE AGREEMENT, (IV) THE LIMITATION IS MERELY A LIMITATION OF, AND NOT AN EXCULPATION FROM, FARNSWORTH GROUP'S LIABILITY AND DOES NOT IN ANY WAY OBLIGATE CLIENT TO DEFEND, INDEMNIFY OR HOLD HARMLESS FARNSWORTH GROUP, (V) THE LIMITATION IS AN AGREED REMEDY, AND (VI) THE LIMITATION AMOUNT IS NEITHER NOMINAL NOR A DISINCENTIVE TO FARNSWORTH GROUP PERFORMING THE SERVICES IN ACCORDANCE WITH THE STANDARD OF CARE.

Subpoenas: Client is responsible, after notification, for payment of time charges and expenses resulting from the required response by Farnsworth Group and/or any subconsultant to subpoenas issued by any party other than Farnsworth Group and/or any subconsultant in conjunction with the services performed under the Agreement. Charges are based on fee schedules in effect at the time the subpoena is served.

Statutes of Repose and Limitation: All legal causes of action between the parties to the Agreement shall accrue and any applicable statutes of repose or limitation shall begin to run not later than the date of Substantial Completion. If the act or failure to act complained of occurs after the date of Substantial Completion, then the date of final completion shall be used, but in no event shall any statute of repose of limitation begin to run any later than the date Farnsworth Group's services are completed or terminated.

Severability: If any term or provision of the Agreement is held to be invalid or unenforceable under any applicable statute or rule of law, such holding shall be applied only to the provision so held, and the remainder of the Agreement shall remain in full force and effect.

Waiver: No waiver by either party of any breach, default, or violation of any term, warranty, representation, agreement, covenant, condition, or provision hereof shall constitute a waiver of any subsequent breach, default, or violation of the same or any other term, warranty, representation, agreement, covenant, condition, or provision hereof. All waivers must be in writing.

Survival: Notwithstanding completion or termination of the Agreement for any reason, all rights, duties, obligations of the parties to the Agreement shall survive such completion or termination and remain in full force and effect until fulfilled.

Governing Law: The Agreement shall be governed by and interpreted pursuant to the laws of the State of Illinois without regard to conflict of law principles.
