CITY COUNCIL MEETS FIRST AND THIRD MONDAY NIGHTS EACH MONTH

Meeting Date: June 28, 2022

RE: Phosphorus Control Plan Contract

Background

In 2020 the City entered into a contract with CMT to develop a Phosphorus Control Plan. This contract has reached the threshold where it must be brought back to the Council for increase purposes.

Analysis/Discussion:

This control program has been budgeted for \$75,000 ever since it was added into the City's NPDES permit by the IEPA. Being optimistic the contract with CMT was set up with a contract amount of \$60,000, and Council approval would have to be sought to utilize the remaining \$15,000 budgeted for on the City's side. The \$60,000 threshold has been reached and the remaining money in the budget will need to be expensed to complete the study.

Fiscal Impact:

This will be a \$15,000 phosphorus control plan increase, from the original contract, not budget. This increase will utilize the full budget that was planned for on the City's side since 2020.

Council Recommendation:

Approve the contract increase to be expensed from line item "50-7400-7856 Sewer Study".
