2013 SUMMER

SUMMERTIME IN LINCOLN - filled with good food and special times for family and friends! Your Park District works hard in offering new and exciting programs and recreational activities for all ages. We've got something for everyone - and that includes YOU! Browse through our summer brochure and discover what your Lincoln Park District has to offer.

REGISTRATION

All programs have a minimum and maximum enrollment and are filled on a first-come, first-served basis. The Park District may alter the schedule, cancel, combine or add programs when enrollment warrants. Registrations are processed in the order received. Registration can be done in person or by mail.

EXPLANATION OF FEES

Lincoln Park District residents, through property taxes, make a financial contribution to the operation of the Park District. Non-residents pay the second fee listed. Program fees are used to offset a part of the costs for instructors, facilities and program supplies.

FINANCIAL ASSISTANCE

Because some residents are unable to participate in programs due to economic hardships, the Lincoln Park District provides financial assistance to reduce or waive certain fees and charges. Application forms are available at the Center desk and will be mailed to residents upon request. All applications must be submitted two weeks prior to program registration deadlines. A limited amount of funding is available. Applicants for assistance are not guaranteed program registrations.

The Lincoln Park District Board and Staff

REFUND POLICY

Requests for refunds must be made three-week days prior to the first class. Application for a refund must be made in person during regular business hours (8 a.m. to 5 p.m. Monday - Friday). A \$2 service fee is charged for all refunds. If for any reason, a program is cancelled, a total refund is given to each participant registered for the program.

INSURANCE

Individual accident insurance for participants in programs is NOT provided by the Lincoln Park District.

PHOTO DISCLAIMER

Registrants and participants permit the taking of photos and videos of themselves and their children during Park District activities for publication in the program brochure, pamphlets, flyers, slides presentations, television, website and other forms of media for use, as the Park District deems necessary.

NSF CHECKS

A \$15 service fee is charged for checks returned due to insufficient funds.

Funny Business 101

Come learn about the world of one of the most unusual occupations - Syndicated Cartooning. Tour guide and advisor for the class is Julie Larson, a Lincoln native. She is a nationally syndicated cartoonist and creator of The Dinette Set. Larson has been in the Funny Business since 1989, becoming nationally syndicated in 1997.

Ms. Larson will share creative development of your comic ideas, the artistic mechanical individual drawing process and style. Character development and dialogs along with an introduction to the business of writing and drawing a daily and Sunday cartoon will be covered. Drawing materials will be provided and kept by the participants. Aspiring cartoonists must bring their own imaginations!

Nathan Turner Memorial Fishing Clinic & Derby

Nathan Turner, former city council man and resident of Lincoln, was an avid fisherman and outdoorsman. He grew up attending the Park District Fishing Derby and cared deeply about passing his love of fishing and the outdoors on to other children. His family wanted to support the fishing derby to keep his memory alive and spread his love of fishing and the outdoors. He is survived by his wife, Sarah, his son Benjamin, his parents Dan & Nancy, his sisters, Janell & Nanette, and many other loving family members.

The FREE Fishing Clinic explores the fundamentals and safety issues of fishing. Herb Drier retired with the Illinois Department of Natural Resources will be here with displays. He will teach young anglers how to tie on a hook, casting techniques and the usage of different baits. There will be drawings for fishing poles and equipment at the end of the presentation.

The FREE Fishing Derby is hosted at the Hickory Lane Campground near Atlanta. In the past, the pond has been stocked just days before the event. Prizes will be awarded in several different categories in this competitive but fun event. The Lincoln City Police D.A.R.E program will sponsor the free derby. Police Chief Ken Greenslate will be on hand cooking hotdogs and providing sodas to the fishermen and their families. Parental approval is a must and parents are encouraged to attend.

Golf Lessons

Instructing this year's golf clinic will be Jeff Nelson. Jeff currently works as the Sports Information Director and the Assistant Director of Student Activities at Lincoln College. Jeff is an avid golfer that has been golfing since the age of 3. His previous golf coaching experience includes Boy's Assistant Golf Coach at LCHS, and Women's Head Golf Coach at Lincoln College. He also ran the Kids Golf Foundation Clinic through the NAYS Hook-A-Kid on Golf program at the Lincoln Elks Country Club. Along with these formal programs, Jeff also gives private golf lessons for golfers of all ages and experience levels.

The purpose of this year's clinic is to focus on proper technique, etiquette, rules, and sportsmanship and most importantly, fun. Various drills, instructional techniques and educational offerings will be tailored to golfers of all ages and skill levels. Monday through Thursday will be on our Driving Range. Friday's lesson will culminate with a golf outing to Four Willows Golf Course in Mason City including 9 holes of golf and a cookout for participants. In the event of inclement weather instruction will be indoors.

Creative Drama & Putting on a Play

Jump-start your imagination with this week-long Theater Camp. Your week will be filled with improvisations, fun theater games and warm-ups as well as arts, crafts and a busy rehearsal schedule. Young actors and actresses will have the chance to put on a performance for their families and friends on Friday, the final day of our camp. Bring your sack lunch and a swim suit and a towel for a fun break at the Lincoln College pool on Tuesday and Thursday. Transportation will be provided by Lincoln Park District. You'll have to be at the park district all day just to have enough time for this much fun!

Mikel Frost and theater have a long history together. After 8 years of school and community plays, Mikel decided to make theater his life's work. He attended Lincoln College in Lincoln where he received his Bachelor's of Arts in Theater in 2009. While attending Lincoln College, Mikel was involved in close to 20 stage shows in varying aspects. From acting on stage, to directing, to building the sets needed, Mikel has done about every job theater has to offer. With the experience he has with children from work in the Entertainment Department at Six Flags St. Louis, Mikel insures that your child will have a fun and educational experience that may spark a higher interest in theater.

Scratch Camp

Week Long Computer Programming for ages 8 and up. Ever wanted to create video games or phone apps? Computer programming is one of the fastest growing fields and in the future jobs in the computer programming field will be in high demand. Start now in an exciting career as a computer programmer. Scratch is a programming language that makes it easy to create your own interactive stories, animations, games, music, and art. As young people create Scratch projects, they learn important mathematical and computational ideas, while also learning to think creatively, reason systematically, and work collaboratively. Scratch is developed by the Lifelong Kindergarten Group at the MIT Media Lab, with financial support from the National Science Foundation, Microsoft, Intel Foundation, MacArthur Foundation, Google, Iomega and MIT Media Lab research consortia. Each participant receives their own copy of the software to use at home and continue what they learn in class.

These courses are brought to you in conjunction with the Lincoln Park District and the artists and instructors of Logan County Arts. For more information about this course please feel free to contact us at contact@logancountyarts.org.

World Arts Camp

Learn about the world of art around you while working on projects inspired by some of the greatest cultures throughout history. From the dawn of civilization the art of mosaic has been used to decorate and embellish. What does this ancient way of making pictures have to do with video games? When you think of Italy what do most people think of? Pizza probably. Did you know that some of the greatest works of art made from glass also come from Italy. Did you know that the Japanese Samurai were not just master swordsmen but also masters at traditional crafts such as flower arranging and paper folding, called Origami? We will not just be limited to the visual arts, we will also explore the realm of sound through the creation of different musical instruments used around the world. Our final project will take us to Germany and focus on the art of printing. There have not always been libraries full of books. It all started with one man, or did it? We will provide all the materials needed for you to explore your own creativity.

Ages: 6-12

Dates: July 15-19

Time: 8:00 - 10:00 am

Fees: \$35/\$42

Location: Administration Building Craft Room

Min. 6 Max. 25

X-Science

Join us for an exploration of the exciting world of science. Journey to the stars and learn about the constellations in the night sky and how to find them using your handmade constellation tube. We will learn to read a star chart. Use Oreo's to understand the phases of the moon. Make simple tools such as a sun compass to understand how to navigate and find your place on the earth. We will explore the land and look at how things grow. Make a hanging garden, instruments to measure the weather and we will make seed bombs to make the world around us more beautiful. Study the way things move through fun crafts. Construct mini rockets, propellers and a vortex cannon while learning about physics. Try your hand at the circuit design using common items like paper and a pencil to create flashlights, rain detectors and touch sensors. Then use your new found skills to create your own pocket electronic game.
