#### **3. Bulb Request / Order:**

**Bulb Quantity:** \_\_\_\_\_ bags (60 bulbs per bag)

#### **4. Planting Information**

- ❖ For a high impact planting, it is recommended to plant 100 bulbs per 50 sq. ft. (1 bulb every six inches) Planting 100 bulbs per 100 sq. ft. (1 bulb per sq. ft.) will give a nice showing. It is suggested that the bulbs be planted in masses as focal points and borders.
- ❖ Bulbs can be planted up to when the ground freezes. For additional information on planting and caring for tulips please reference:  
<http://extension.illinois.edu/bulbs/planting.cfm>
- ❖ Your tulip bulbs should be planted within Lincoln city limits and preferably visible from the street
