COVID-19 Update

The total number of confirmed positive cases in Logan County is now **793** including **604** individuals who have recovered, **183** active cases and **6** fatalities.

Logan County Data

A continually updated table of Logan County data is maintained by the Logan County Department of Public Health and is available at www.lcdph.org.

NOTE: A recovered individual is someone who has tracked their symptoms twice daily and reported that they have been fever free for 24 hours to the Logan County Department of Public Health. The total number of positives on the Logan County dashboard represents a historical running total of confirmed positive cases. Recovered individuals are never removed from the total number of positives.

Statewide Data

A continually updated map of statewide data is maintained by the Illinois Department of Public Health and available online at: <https://www.dph.illinois.gov/topics-services/diseases-and-conditions/diseases-a-z-list/coronavirus>
