Logan County Data

The table below represents Logan County residents. This information is updated regularly by the Logan County Department of Public Health and is available at www.lcdph.org. The discrepancy between the number of in patients at Abraham Lincoln Memorial Hospital in the table above and the LCDPH table below is because ALMH may be caring for patients from outside of Logan Counties and because some of the tests are being done by independent labs rather than by the Illinois Department of Public Health/LCDPH.
