## COVID-19 Update: October 2, 2020

This is a joint communication from the Logan County Department of Public Health and Abraham Lincoln Memorial Hospital updating you on the status of coronavirus (COVID-19) in Logan County. This communication will come only when a NEW COVID-19 positive case is confirmed and identified as someone who resides in Logan County.

The Logan County Department of Public Health has confirmed the following new cases of COVID-19 in Logan County:

- An individual in their 20s who is symptomatic and is isolating at home.
- An individual in their 30s who is symptomatic and is isolating at home.
- An individual in their 70s who is asymptomatic and is isolating at home.
- An individual in their 80s who is symptomatic and is isolating at home.
- An individual in their 60s who is symptomatic and is isolating at home.
- An individual in their 60s who is symptomatic and is isolating at home.
- An individual in their 60s who is symptomatic and is isolating at home.
- An individual in their 40s who is asymptomatic and is isolating at home.
- A teenaged individual who is symptomatic and is isolating at home.

The total number of confirmed positive cases in Logan County is now **484** including **440** individuals who have recovered, **42** active cases and **2** fatalities.

An 89-year old individual being treated for COVID-19, has died on September 27, 2020.

The individual was a Logan County, Illinois resident and tested positive on September 15, 2020. This is the second death in Logan County.

“We are very saddened to hear of the passing of this individual”, said Kara Davis, RN, BSN , Director of Nursing at the Logan County Department of Public Health. “It is very important that we all do our best to practice social distancing, mask wearing, hand washing and staying home if we do not feel well.”

## Logan County Data

A continually updated table of Logan County data is maintained by the Logan County Department of Public Health and is available at [www.lcdph.org](http://www.lcdph.org).

NOTE: A recovered individual is someone who has tracked their symptoms twice daily and reported that they have been fever free for 24 hours to the Logan County Department of Public Health. The total number of positives on the Logan County dashboard represents a historical running total of confirmed positive cases. Recovered individuals are never removed from the total number of positives.
