Ordinance amending the entirety of Title VIII.

Alderman Bateman would like to strike 8.3.11 and 8.3.12 from the City Code. 8.3.11 refers to Playing ball in the street. 8.3.12 refers to throwing missiles in the street.

This was a lengthy project that City Attorney Hoblit, WW Project Manager Andrew Bowns, Street Superintendent Walt Landers, and Building & Safety Official Wes Woodhall collectively worked on for almost a year. It began with updating the process for permitting and street breaks and continued with updating and modernizing the entire Title.

Alderwoman Rohlf's questioned what the term designee meant in the term it's used in the city code. It is defined as the next person in charge would become in charge of the department or situation. City Attorney Hoblit will add the definition of designee to the beginning of Title VIII.

This item will be placed on the regular agenda.

Announcements:

- Alderman Eimer thanked the Street and Sewer departments for their work on the Mayfair Drive culvert
- Alderwoman McClellan thanked the team for working on the changes for Title VIII.

MEMORANDUM

TO: Mayor and City Council Members

FROM: Fire Chief Dunovsky

MEETING DATE: November 28, 2023

RE: Firecom Wireless Under Helmet Headsets and Base Stations

Background:

This is an estimate for updated and replacement headsets for all fire truck type apparatus (5101, 5102, 5103, 5104). The old system is extremely outdated and as we are unable to get adequate replacement equipment. The newer wireless technology would provide more reliable coverage, allow better in truck communications while en route to emergency calls, reduce the possibility of "loss of hearing" claims, and promote a safer work environment. The total cost of the project is \$20,824.91 and would be paid for out of the Fire Equipment Bond Expenditure Line 43-0800-8863.

MEMORANDUM

TO: Mayor and City Council Members
FROM: Fire Chief Dunovsky
MEETING DATE: November 28, 2023
RE: APEX Heavy-Duty Stabilization & Lifting Strut

Background:

This is an estimate for an updated and replacement APEX Heavy-Duty Stabilization & Lifting Strut System. The older system we currently use is twenty (20) plus years old. Strut stabilization is used in vehicle and heavy rescue scenarios. The struts provide added stabilization to vehicles, trucks, buildings, large containers, railroad cars, etc. in rescue type scenarios. The total cost for replacement is \$14,677.00 and would be paid for out of the Fire Equipment Bond Expenditure Line 02-0800-8863.

Council Recommendation:

Benefits of a Res-Q-Jack brand Apex X-Strut Heavy-Duty Lifting Strut

1. Swivel CRG End Fitting

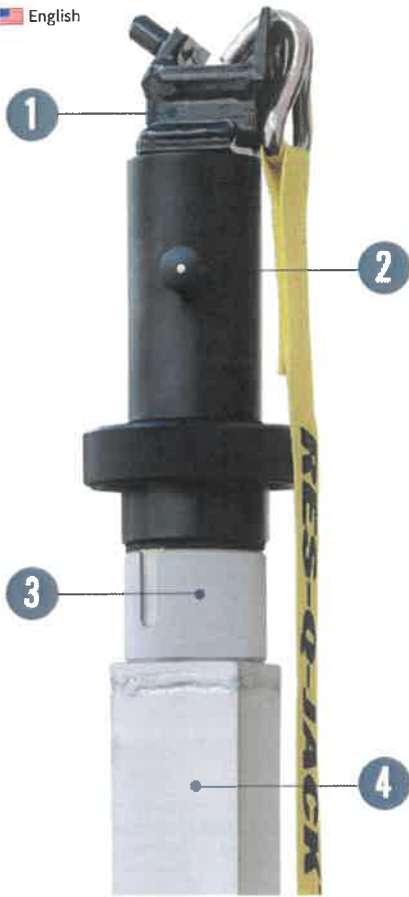

The Apex X-Strut comes standard with our Swivel CRG head fitting which gives you a variety of purchase point options and rotates 360° to easily find any purchase point.

2. Quick-Release Head Fittings

Change head fittings in an instant with the pull of a single retaining pin. Apex X-Strut is compatible with our pin-free end fittings and other manufactures end fittings, so you can swap out with neighboring departments during mutual aid response.

3. Pin-Free /Twist-Free Operation

Threaded inner tubing allows for fast and smooth adjustments without pins. The unique design allows for a positive stop, keeping the inner tube from rotating under lighter loads, and eliminating the risk of over extension.

4. Aluminum Construction

The Apex X-Strut features the combination of a milled aluminum inner tube with a welded aluminum chassis for superior strength when shoring, stabilizing and lifting, without adding weight.

5. Compatible Head Fittings

Quick release fittings detach in an instant, allowing you to add extensions for greater length, or swap out fittings from other manufacturers.

6. X-Strut Lifting Power

The Apex X-Strut transforms from a shoring strut to a lifting strut in seconds with our removable mechanical Add-On Jack, giving you 6,000 lbs. of lifting capacity with 12 inches of travel. Need to lift more than a foot? Just remove the Add-On Jack and reset for 12 more inches of lift.

7. Built-In Ratchet Strap

Comes with built-in ratchet strap (not available on short strut) with wire hooks, keeping your strap right where you need it.

8. Base-Mounted D-Rings

Pivoting rings built into the base plate allow for fast attachment of straps, hooks and chains, or double as a picket receiver when anchoring is needed.

ABOUT US

We build each rescue strut by hand in our shop, from proven and predictable materials. From hand-welds to high-end machinery, our struts are built with care, and inspected and tested to ensure years of performance in the field.

Our tools were born through first-hand experience in the field and have been refined to suit the needs of responders through communication with responders.

Our philosophy is simple: "Simple tools, advanced training." We believe in providing responders with tools that are as intuitive as they are effective, and providing in-depth training to maximize effectiveness in the field.
